

Environmental Data Search

Look through a few of the links provided on your computer and choose one that is most interesting to you and your group.

Once you pick one website, look through the different data sets, then choose one of the provided “Data Story” templates to fill out.

Once finished, answer the following questions about your data:

1. What data is shown

2. How is the data represented?

3. How was the data collected?

4. What is the trend? (What patterns do you see in the data?)

5. Why is this data important?
